

FIBROMYALGIA

Fibromyalgia is a chronic pain disorder that attacks muscles and tendons in certain parts of the body. It reportedly affects 3 to 6 million Americans. The symptoms of fibromyalgia commonly include aches, pains, fatigue, sleep-related problems, migraines and tiredness.

Everyday habits, such as eating acidic foods, drinking dead water, being overweight and not exercising create an acidic environment in the body. These habits can allow diseases, such as fibromyalgia, to thrive.

Changing your diet to include a variety of alkaline foods as well as pure, ionized **Tyent Water™**, may help to greatly reduce the aches, pains, stress and fatigue that you are feeling from fibromyalgia. **Tyent Water™** helps to reduce the acidic levels in your system, leading to healthier cells and tissue repair, which may help to relieve you of the unpleasant symptoms of fibromyalgia.

**TAKE
THE SHORTEST
PATH TOWARD
HEALTH AND LONGEVITY**

Prevention is the key. Most people don't fully appreciate their health until they lose it. As said by Dr. Alvin Stein MD, FACS, *"Acidosis is the only true disease and everything that makes us sick is simply a by-product of acidosis."*

If you are healthy now, then drink alkaline **Tyent Water™** to help stay healthy through prevention. However, if your health is currently less than perfect, then take one of the shortest paths to recovery by drinking alkaline **Tyent Water™**.

It's a pretty simple decision. Save thousands of dollars on bottled water and improve your health at the same time. Drinking alkaline **Tyent Water™** is the single most productive thing you can do for your health.

Tyent USA will help you embrace the future of healing and prevention.

Yes, there is a better road to achieve the benefits that you need for a healthier lifestyle. Call **Tyent USA** today...and get on the road to better health now!
