

## OSTEOPOROSIS

What role does pH play in the development of osteoporosis? A big one! An acidic environment causes calcium to be taken from the bones. Here is how it works:

1. Part of normal digestive function causes the body to store acid in its extra-cellular matrix.
2. Due to the acidic nature of most foods, removing all of the acid from the body becomes an extremely difficult task and usually ends in acid overload.
3. For our body to neutralize these acid overloads, the blood will draw alkaline minerals, such as, magnesium, sodium and calcium from bone tissue in order to neutralize the pH. As a result of this process, our bones become deficient in calcium. This deficiency, in turn, contributes to arthritis, osteoporosis and other bone related disorders.

By drinking ionized alkaline **Tyent Water™**, the body's pH becomes more alkaline and, therefore, may help to prevent calcium from being pulled from our bones. Drinking **Tyent Water™** helps contribute to a healthier body, and may quite possibly be a very good preventative measure for reducing the chances for bone disorders such as osteoporosis.

## TAKE THE SHORTEST PATH TOWARD HEALTH AND LONGEVITY

Prevention is the key. Most people don't fully appreciate their health until they lose it. As said by Dr. Alvin Stein MD, FACS, "*Acidosis is the only true disease and everything that makes us sick is simply a by-product of acidosis.*"

If you are healthy now, then drink alkaline **Tyent Water™** to help stay healthy through prevention. However, if your health is currently less than perfect, then take one of the shortest paths to recovery by drinking alkaline **Tyent Water™**.

It's a pretty simple decision. Save thousands of dollars on bottled water and improve your health at the same time. Drinking alkaline **Tyent Water™** is the single most productive thing you can do for your health.

**Tyent USA** will help you embrace the future of healing and prevention.

Yes, there is a better road to achieve the benefits that you need for a healthier lifestyle. Call **Tyent USA** today...and get on the road to better health now!
