

RADIANT SKIN

From the Inside:

As we age, it becomes increasingly more difficult for our bodies to absorb water to become hydrated, which causes ill effects such as a loss of collagen and elasticity in our skin. In summary, this environment is a breeding ground for premature aging!

Take a moment to review how the properties of **Tyent Water™** can benefit your skin's health:

Smaller cluster size =
better hydration for skin and body =
better health all around

Abundance of antioxidants =
neutralization of free radicals =
the neutralization of the primary causes of damaged cells and premature aging.

For the Outside:

By cleansing your skin with acidic water (water with a pH of 4.0 to 6.0), you can achieve a more luminous and youthful glow. For basic skin cleansing, use water with a pH between 4.5 and 5.5, as opposed to regular tap water, which usually has a pH of about 7.0.

Why?

Because our skin's natural pH is between 4.5 to 5.5. By using water with a pH that is higher than 5.0, you will disrupt your skin's natural pH level and strip your skin of the essential lipids that it needs to stay healthy and luminous. When skin loses its essential lipids, it will expand and contract unnaturally, causing grounds for premature aging.

Water with a natural pH of 4.5 to 5.5 will act as a natural astringent, which will help keep your skin toned, firm and clear. Acidic water naturally decreases bacteria, helping with acne, large pores and dryness.

Other skin conditions, which are caused or worsened by high pH water, include rashes such as athlete's foot, psoriasis and eczema. For these conditions, cleansing with strong acidic water will prove extremely helpful, and may even clear up such conditions.

In Korea and Japan, hospitals sterilize wounds and care for diabetic ulcers using acidic water. They also use acidic water to aid in sanitization practices, which helps to eliminate infectious bacteria. Read on for a more in-depth understanding of ionized water and how it works.

**TAKE
THE SHORTEST
PATH TOWARD
HEALTH AND LONGEVITY**

Prevention is the key. Most people don't fully appreciate their health until they lose it. As said by Dr. Alvin Stein MD, FACS, *"Acidosis is the only true disease and everything that makes us sick is simply a by-product of acidosis."*

If you are healthy now, then drink alkaline **Tyent Water™** to help stay healthy through prevention. However, if your health is currently less than perfect, then take one of the shortest paths to recovery by drinking alkaline **Tyent Water™**.

It's a pretty simple decision. Save thousands of dollars on bottled water and improve your health at the same time. Drinking alkaline **Tyent Water™** is the single most productive thing you can do for your health.

Tyent USA will help you embrace the future of healing and prevention.

Yes, there is a better road to achieve the benefits that you need for a healthier lifestyle. Call **Tyent USA** today...and get on the road to better health now!
