

WEIGHT LOSS WITH ALKALINE WATER

Obesity, a condition where excess body fat has accrued to the point of lowering life expectancy, is the second leading cause of preventable death! America's obesity problem has reached epidemic proportions. Therefore, it is essential to build and maintain a healthy lifestyle in order to help avoid this condition altogether.

People who are severely obese find, more often than not, that diets and medications fail as long-term solutions to their weight loss problems. Maintaining a healthy weight requires maintaining a healthy diet and healthy lifestyle.

Your diet should be based on the **80/20 rule** which consists of a balanced diet of 80% alkaline foods and 20% acidic foods. In the past, many people have found that this type of balanced diet is difficult to maintain due to the large quantities of raw foods required for such a balance. However, with the introduction of **Tyent Water™**, many people have found it much easier to maintain a slightly alkaline PH within the body. A few of the everyday foods and drinks that we ingest which cause a toxic acidic environment are soda, most bottled waters, coffee, tea, red meat, alcoholic beverages, and dairy products.

Our body protects its vital organs from an acidic environment by storing fat around them. This fat will continue to protect the organs until the environment becomes alkaline. When the pH of the body becomes alkaline, the extra fat around the vital organs is no longer needed. This stored fat can then be released and removed from the body

Alkaline **Tyent Water™** aids in this detoxifying process. Ionized **Tyent Water™** is particularly successful in weight management. The positively charged, acidic fat cells are eliminated by the negative charge of the alkaline water.

Tyent Water™ is essential for helping to aid in properly functioning organs, allowing toxic waste to pass out of the body.

Many doctors across the U.S., and worldwide, agree that detoxifying the body and organs with ionized alkaline water may help correct the body's alkaline / acidic balance. Drinking **Tyent Water™** has been found to be an effective way to help you to achieve a balanced, long-term health solution.

TAKE
THE SHORTEST
PATH TOWARD
HEALTH AND LONGEVITY

Prevention is the key. Most people don't fully appreciate their health until they lose it. As said by Dr. Alvin Stein MD, FACS, *"Acidosis is the only true disease and everything that makes us sick is simply a by-product of acidosis."*

If you are healthy now, then drink alkaline **Tyent Water™** to help stay healthy through prevention. However, if your health is currently less than perfect, then take one of the shortest paths to recovery by drinking alkaline **Tyent Water™**.

It's a pretty simple decision. Save thousands of dollars on bottled water and improve your health at the same time. Drinking alkaline **Tyent Water™** is the single most productive thing you can do for your health.

Tyent USA will help you embrace the future of healing and prevention.

Yes, there is a better road to achieve the benefits that you need for a healthier lifestyle. Call **Tyent USA** today...and get on the road to better health now!
